PROFILE

My name is Hassam Ullah, and I'm from Malir, Karachi. I have completed my FSC and have strong skills in Graphics Designing, Ethical Hacking, Artificial Intelligence, Machine Learning, Deep Learning, and Python Programming. I'm a hardworking and motivated person who always tries to learn new things and improve my skills. My goal is to work in a good organization where I can grow and contribute positively.

PROJECT & EXPERIENCE

AI Shield: Smart Cyber Protection System

Securing the Web with the Power of Artificial Intelligence.

- Threat Detection: Uses AI to automatically detect and block suspicious activities on websites.
- User Authentication: Employs machine learning models to identify fake logins and prevent hacking attempts.
- Real-Time Monitoring Dashboard: Displays live security alerts and system status with an easy-to-use web interface.

GhostEye AI: Invisible Cyber Defense System

Protecting the web like a hacker — but smarter.

- Stealth Monitoring Mode: Works secretly in the background to track hackers' activities on the server in real time.
- AI Counter-Attack Logic: Uses machine learning to automatically identify and neutralize intrusion attempts before damage.
- Adaptive Web Firewall: Continuously learns new hacking techniques from live data and updates its defense rules itself.

EDUCATION

Matriculation
Intermediate

short course from NED University
